

## CAN ASSIST SERVICE PROVIDERS WITH EQUIPMENT & SYSTEMS FINANCING OPTIONS

### **MHz BUDGET STRETCHING SOLUTIONS**

In support of our Customers, MHz together with our Leasing Partners can offer turn-key lease financing solutions with flexible payment options designed to match your budget, cash flow and ROI objectives. Whether your financing needs are for equipment only or for a completed project including services, MHz can help! Many lenders don't understand or won't lend against the build-out time frame of an entire project, not to mention Systems Integration, Extended Warranties, Training and/or Service Level Agreements, etc. At MHz, we have built our reputation on our ability to provide end2end solutions for HFC or FTTH Service Providers!

### **FINANCING FOR ALL TYPES OF PROVIDERS**

Financing from \$25,000 to \$25,000,000.

### **SPREAD OUT COST TO MATCH REVENUE STREAMS - LET THE SYSTEM PAY FOR ITSELF!**

A real key to customizable financing is to spread-out the cost of new technology and match it to the timing of current and future revenue and cash flow. At its simplest, most Services Providers have a subscriber base that will generate X revenue monthly. The cost of new equipment or a system is often proportionately high compared to the current revenue stream of a provider. MHz can now offer scaled monthly payment solutions, so you can launch new Services, Projects or Systems and in most cases be profitable right away without waiting for a "break even" point, months or even years down the road.

## **MANAGE THE UNCERTAINTIES OF A CHANGING ECONOMIC ENVIRONMENT:**

- FIXED-RATE FINANCING WITH MONTHLY PAYMENT TERMS FROM 12 TO 84 MONTHS
- \$1 BUYOUT AT THE END OF THE LEASE-PURCHASE TERM
- INTERIM FINANCING DURING PROJECT INTEGRATION PHASE
- CAPITAL LEASE-PURCHASE, LOAN OR OPERATING LEASE TRANSACTION STRUCTURES
- EASY-START PROGRAMS WITH GRADUATED PAYMENTS TO MATCH REVENUE GROWTH
- A COST-JUSTIFIED ROI SOLUTION THAT ACTS AS A HEDGE AGAINST INFLATION
