MHz MEGA HERTZ

FIBER-COMPETITIVE HFC UPGRADES
10% COST | 10% TIME

Deliver Multi-Gig speeds without a fiber overbuild,
at a FRACTION of the cost and a FRACTION of the time!

MODERNIZE HFC WITHOUT STARTING OVER

Whether you're upgrading HFC plant to 1.8 GHz, implementing Remote PHY or vCMTS, deploying advanced DOCSIS, modernizing Core Routing and Switching infrastructure, or transforming your broader broadband network, MHz delivers the technology expertise, engineering resources, and implementation capabilities required to build faster, more capable, and future-ready networks.

FROM CORE TO CUSTOMER

Technology, Integration & Turnkey Solutions

CORE ROUTE / SWITCH

Modernize routing and switching infrastructure for a stronger, more scalable broadband core.

DOCSIS + REMOTE PHY

Plan migration strategies for vCMTS, Remote PHY, and advanced DOCSIS deployments.

1.8 GHz HFC EVOLUTION

Evolve your outside plant with 1.8 GHz upgrades and turnkey OSP installation.

END-TO-END DELIVERY

Technology, engineering, consulting, integration/OSP implementation with the partner you can rely- on.

WHY MHz ?

STRATEGY + EXPERIENCE

Multi-technology solutions, industry-leading experience and a proven track record you can count-on.

FROM CONCEPT TO DEPLOYMENT

We'll help you prepare your HFC network for the future - not just the next upgrade cycle.

TURN HFC INTO AN ASSET

Today's technologies can transform your HFC network, from a maintenance liability into a scalable, multi-gig, revenue-driving asset.

WE'LL PROVE IT. OUR CUSTOMERS WILL VERIFY IT!
