

Off-Air Broadcast

"Client Services & Problem Resolutions"

that will make your day!

The Issues:

We know, the management of Tower Inspection, Structural Analysis, installation of new antennas, removal of old antennas, and installation of new equipment, can be time-consuming & overwhelming;

We know, identifying *intermittent* OTA Video QoS issues can drive everyone crazy!

If your time is constrained and you feel stressed, don't be! We can help and make it exciting and worry-free!

The Solution:

Why not investigate a professional overview of what is available for you at MHz?

Let's discuss how we can assist you in your decision to meet & implement your Off-Air Broadcast Channel needs, project requirements and long-term goals?
